HOW IT WORKS

From job sites to your students' phones, **automatically**.

01

We search your city

Every one to two days, through official job-search APIs, for the skills your courses teach.

02

We clean and match

Duplicates, sales roles and scam posts removed. Jobs tagged to your courses and scored for each student.

03

You share, they apply

Call or WhatsApp matching students in one tap. Students apply on the original job site.

FOR YOUR INSTITUTE

Know exactly **who to call**.

Live jobs near you

Your city first, then your state and remote roles.

Students who match this job

Ranked by match score with skills, phone and an "Applied" tag.

One-tap WhatsApp sharing

Messages go out with your institute's name.

Linked to your courses

Every job shows which of your courses prepare for it.

Placement records

Download jobs and matching students as spreadsheets.

WHY IT MATTERS

Placement support that helps you enrol.

🗨️

Counselling that converts
 Show parents real openings in your town for the course they are considering.

📈

Natural upsell
 Jobs needing TDS or Excel point students to your course that teaches it.

🏫

College tie-ups
 Give partner colleges a placement-support layer with exportable records.

❤️

Engaged students
 New openings keep students coming back to your app.

QUESTIONS

Where do the jobs come from?

Google Jobs (Naukri, LinkedIn, Indeed, Foundit, Shine, career pages) through official APIs, with real apply links.

How is a match worked out?

Out of 100: skills count most, then experience, education, distance and job type.

Which jobs will we see?

Jobs in the course areas you offer: accounting, GST, tax, payroll, Zoho Books, audit, Excel/MIS, finance, AI and programming.

Do you guarantee placements?

No. We find real openings and show who fits; employers make hiring decisions.

Give every batch a **path to a job.**

Start with any LMS plan. The Job Portal is ready on day one.
